

CLAIMS

1. A pouring attachment adapted to be mounted on an annular rim of a container and which receives a lid allowing sealing and re-sealing of the container with said
5 lid, said pouring attachment including an outer annular rim defining an annular space or opening and an inner circumferential wall against which the lid sealingly abuts, and lid retaining means for releasably securing the lid in the annular space for the sealing and re-sealing of the can.
- 10 2. A pouring attachment according to claim 1 wherein the lid is hingedly attached to the annular rim of the pouring attachment.
3. A pouring attachment according to claim 1 or claim 2 substantially as hereinbefore described and illustrated.
4. A container including a pouring attachment as defined in any one of the previous
15 claims.
5. A container according to claim 4 substantially as hereinbefore described and illustrated.
